Intro to ezCater

Freddy's has partnered with ezCater to provide Guests with the opportunity to take care of large groups of Fredheads with special group friendly menu items. We are also moving to one unified menu so that our catering programs are consistent throughout the system. This guide lays out the details of our Freddy's ezCater Menu, which includes the following options for delivery or pick-up:

Create-Your-Own (CYO) Burger or Hot Dog Bars —

CYO Burger Bars bring our most popular burgers, Freddy's Original Doubles, right to our catering Guests. CYO Hotdog bars provide a recognizable and easy to put together option for those Guests that might not want a traditional Burger Bar option. Each CYO Bar serves (increments of) 10 and comes with a bag of chips, burgers or hot dogs, as well as all the fixings needed to build a great meal.

Bagged Lunches —

These single-serving options offer a flexible catering option for those that might not want to order for 10 Guests, or those who might want to order something different for each of those 10! Bagged Lunches serve 1 and come with their choice of one of our Classic or Favorite sandwich options. They are packaged very similarly to our regular carry-out orders, with the distinction that they come with a bag of chips and 2 brownies for dessert!

For Guests looking for a Gluten sensitive option, the Original Double is also offered as a Lettuce Wrap (Gluten Sensitive option does NOT include brownies).

Catering Garden Salad —

Freddy's also has a catering Garden Salad for those Guests looking for a lighter option or something to supplement one of our CYO Bars.

Catering Chicken Tender Trays —

Freddy's 25-piece Chicken Tender Trays make a great add-on to round out CYO Bars, or to order them for pick up as a great last-minute catering option. Available in increments of 25, these are quick and easy way to market catering for any group size. Included with each Chicken Tender Tray are 3 Freddy's Fry Sauce cups, 3 Ranch, 3 BBQ, and 3 Honey Mustard dipping sauces.

Catering Brownie Trays —

Freddy's Brownie Trays delight on their own, or make a delicious addition to any catering order. They serve 10, with 2 (2x2 inch) brownies for each serving!

Catering Beverages —

We offer Gallon sized beverage caddies of Lemonade, Luzianne® Sweet Tea, or Luzianne® Unsweet Tea. Catering Beverages come with cups, lids, wrapped straws, and a bag of ice.

We also offer 12 packs of Aquafina Bottled Water. If ordering bottled water, order must be placed 48 hours in advance.

ezCater Order Management

Baseline Information

How to access ezManage?

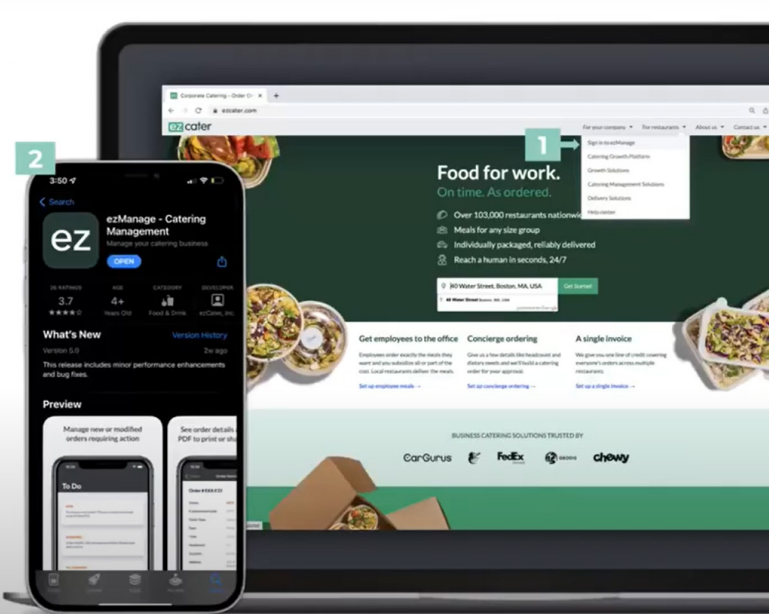

- All GM's and MUM's should have received an email from ezCater prompting you to login to your ezManager account. This can be done through a web browser or on the ezManage app on the store iPad. If you believe you should have an account and did not receive an email, reach out to the [FASD](#).

Signing into ezManage?

ezManage is homebase for all things ezCater. You can access your orders, edit your store settings, update parameters, and much more. Access ezManage through a phone or computer, or download our [ezManage iOS app](#) on the Apple App Store.

Logging In

- 1 Open up a web browser and go to [ezcater.com](#). Hover your mouse over the "For Restaurants" dropdown and click "sign in to ezManage"
- 2 On your Apple device open the App Store. Search for [ezManage - Catering Management](#) and download our app. Once you open the app, login with your ezManage credentials.

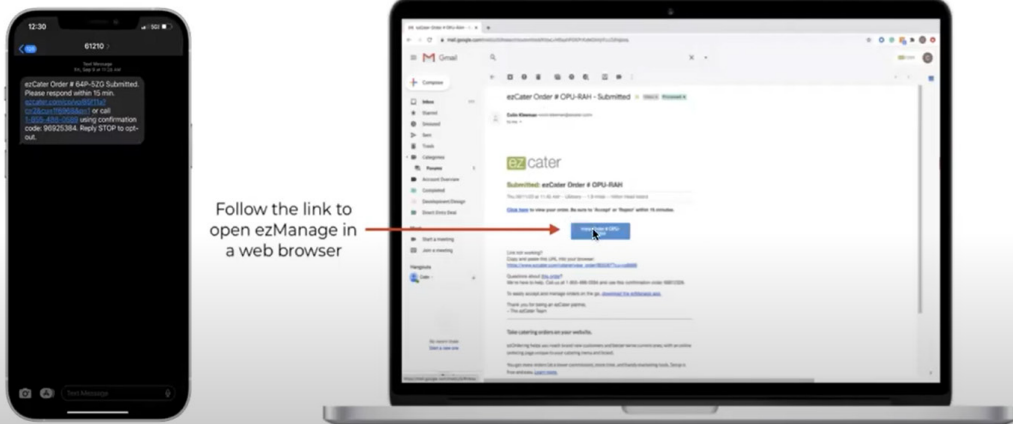

How will the restaurant know when an ezCater request comes in?

- The GM and MUM will receive order notifications through text message and email. These notifications will prompt you to take action and accept or decline the order.
 - Please check iPad settings to make sure push notifications are turned on as well.
- A reminder notification will be sent the morning of as well.

How to accept or reject an order?

- Open the order details, review the date and time, make sure you are appropriately staffed and make sure you have the inventory to be sure the order will be successful. ***EzCater advises that you should be accepting orders within 15 minutes.*** This will help your location get a natural boost in ezCater's search results. We use ezDispatch so a driver will automatically be assigned to an order. Guest pick up is an option as well.

The screenshot shows the 'ez manage' interface. On the left is a sidebar with navigation options like 'Orders', 'Reliability Rockstar', 'Get More Orders', 'Payments', 'Marketing Tools', 'Promotions', 'Customer Management', 'Delivery Management', 'Menus', 'Performance', 'Reports', 'Reviews', 'Settings', and 'Training Resources'. The main area is titled 'Orders' and has tabs for 'Upcoming', 'Completed', 'Rejected', 'Canceled', and 'Unplaced'. A 'To Do' section highlights three orders: #447-E85 (Thursday, Oct 26 at 11:25 am, \$224.98), #5P4-KTP (Friday, Oct 27 at 12:55 pm, \$239.53), and #GKC-VMU (Wednesday, Oct 25 at 12:15 pm, \$180.14). Below these are buttons for 'Reconfirm', 'Accept', and 'Assign Driver'. At the bottom, a table lists scheduled orders with columns for Order #, Date & Time, Status, Customer, Address, Store, Source, Delivery Info, and Order Value.

- Once the order is accepted, ***print out the order and highlight the pickup time and order #.***
- Confirm the order # with the driver and use the printed order as a checklist so that ALL items are sent with the driver.

The screenshot shows a printed order confirmation from ezCater. The header includes the ezCater logo, contact info (HELP: 1-855-488-3746, FAX: 1-866-847-1510, EMAIL: support@ezcater.com), and the order details: Order # 5P4-KTP, pickup by ezDispatch on Friday, October 27 at 12:55 PM. The order details section shows the date (Friday 10/27/23), store (Big City Pizza - 568 Cambridge St, Boston, MA 02134), headcount (25), and pickup time (12:55 PM). The item list includes 2 Chicken Wings (\$98.00), 3 Grilled Chicken Sub Sandwich (\$28.50), 4 Cheese Pizza (\$88.00), 4 Meat Lover's Pizza (\$60.00), 4 Steak Bomb Pizza (\$104.00), and Tableware (\$0.00). The bottom section shows the Sub Total (\$378.50), Delivery Fee (\$37.85), Preferred Caterer Program (-\$75.70), ezDispatch Charge (-\$37.85), and ezRewards Promo (-\$15.14).

Reliability Rockstar program

What is the Reliability Rockstar program?

This celebrates and highlights the most reliable and high-performing caterers on the ezCater Marketplace. *Name of the game: accept as many orders as possible while remaining reliable.*

Program requirements:

- 6+ orders in 3months
- 4.8 star rating
- No cancellations
- No rejections
- 98.5% on-time deliveries

ezDispatch Best Practices

Brands have consistently reliable & successful deliveries when they...

- **Have the order ready by the specified pick-up time:** The pickup time is listed on the ezDispatch confirmation email and the order details in ezManage. Note that the pickup time can change even the morning of the delivery
- **Morning of Reconfirmation:** Check for order updates/pickup time changes and print out the morning of delivery, rather than the day before earlier
- **Checklist Items:** Utilize order printout as checklist to make sure all items are included
- **Confirm ezCater Order #, Complete & Correct:** We rely on stores to always confirm the correct 6 digit ezCater order number (ex: #123-XYZ) with the driver before handing over the order. As well as ensuring they are complete and all correct items for each order
- **Label Bags/Boxes** (Ex: "bag 1 of 2; bag 2 of 2 for ezCater order #____" etc)
- **Implement Signage:** Create and put out some laminated signage in front of orders in situations where *partial* orders are placed on front counters where it might otherwise appear to drivers that they are complete and ready to go.
 - Ex: "ezCater Order #____ Not complete yet, please wait" and then fill in the order # with a dry erase marker.
 - Second sign Ex: "ezCater Order #____ complete. __# of bags/boxes, ready to go." This might even help the back-end and front-end staff to stay on the same page.
- **Set pick-up instructions within your ezManage account!**
- **Do not provide drivers with any equipment you want returned. Drivers will arrive with their own equipment.**
- **Review your store's delivery hours to make sure drivers can collect the order even if the pickup time is before your location opens to the public.**

NEED TO MAKE CHANGES, REQUIRE SUPPORT, OR HAVE FEEDBACK? REACH OUT!

- **PLEASE CALL 1-800-488-1803 IMMEDIATELY IF:**
- The pickup address has changed (must be at least 3 hours before pickup).
- You can't prepare an order in time for pickup.
- The delivery driver is more than 15 minutes late to arrive.

ezCater Settings

For the ordering and delivery process itself, please be aware that the following settings should not be changed or updated:

- **Only delivery orders with ezCater (ezDispatch) are accepted. Pickup orders are not permitted**
- **Lead Time** - Should be set to 4 hours and able to accept same day orders
- **Delivery Fees:**
 - Delivery Fee - Custom
 - Order Minimum - \$50
 - Delivery Area/Distance - Within 20 miles
- **Tips should not be accepted by the restaurants**
- **Please reach out to your FBC point of contact if you have any questions or need guidance on the settings above**

And if you haven't done so already, please verify that all pricing on the ezCater site is correct for your location. Unfortunately, all price updates must be done manually by ezCater and may take some time to be reflected accurately. Any pricing errors should be directed to the Freddy's App Service Desk (FASD).

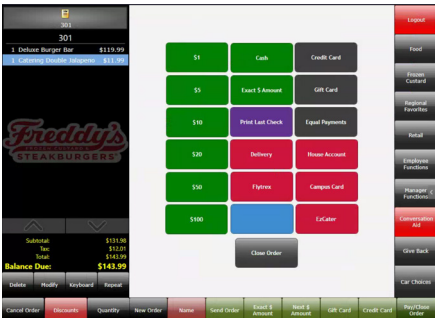

Olo integration allows orders to flow seamlessly from ezCater into the POS. What does this process look like from the restaurant end for successful orders? What about orders that fail?

- If you have email notifications turned on, you should receive an email notification from ezCater when an order fails to flow into the POS. Manager should check the POS and verify if an order has hit it or not since orders cannot be voided or edited once EOD runs.

Catering orders made in-person at the restaurant (or ezCater orders that don't hit the POS) will need to be entered through the Catering menu in Manager Functions. The steps are:
